Nicolas Mozo

Senior Frontend Developer en Cooltra

Barcelona, Cataluña, España

Extracto

Frontend-leaning Full-Stack Developer with strong experience in React, TypeScript, Next.js. Skilled in modernizing legacy systems, building scalable applications, and driving best practices through TDD to deliver clean, maintainable, and reliable code. Passionate about creating impactful digital products and seamless user experiences.

Experiencia

Cooltra
Senior Full-stack Developer

enero de 2022 - Present (4 años)

Barcelona, Cataluña, España

Led the development of a custom backoffice platform, ensuring a smooth migration from a legacy SaaS solution using React and TypeScript.
Built a Progressive Web App (PWA) to support mechanics and battery swapping teams, improving operational efficiency in the field.
Established the technical foundations for the new Cooltra mobile app, leveraging Expo and enabling seamless over-the-air updates to accelerate feature delivery.

Vinglet
Full-stack Developer

enero de 2016 - enero de 2025 (9 años 1 mes)

Barcelona y alrededores, España

Contributed to building and scaling Vinglet, a platform designed to help entrepreneurs grow their startups through better investments, partnerships, and mentoring.
Developed the landing page and core dashboard using HTML5, CSS3, Vanilla JavaScript, and native WebComponents, while also designing and optimizing a Python/Flask API.
Spearheaded a UI revamp in 2018, introducing Material Design principles and modernizing the stack with React, Redux-Saga, TypeScript, Babel, Webpack, Prettier, and ESLint.

Led the migration to Next.js in 2020, moving from CSR to Server-Side Rendering (SSR) to significantly improve SEO and performance, completing the transition through an iterative, team-driven process.

SEAT:CODE
Frontend Developer
septiembre de 2020 - enero de 2022 (1 año 5 meses)
Barcelona, Cataluña, España

Visca Web - Sports Digital Media in Barcelona
Frontend Developer
junio de 2019 - agosto de 2020 (1 año 3 meses)
Barcelona y alrededores, España

Drove the migration from a legacy monolithic platform built with Vanilla JavaScript to a modern, scalable React/TypeScript application.

Implemented a Server-Side Rendering (SSR) architecture, enhancing SEO performance and page load speed.

Optimized the development workflow with Babel, Webpack, and Styled-Components, ensuring cross-browser compatibility and reusable UI components.

Introduced Storybook as a central hub for component documentation and cross-department collaboration.

Globant
Full-stack Developer
junio de 2018 - mayo de 2019 (1 año)
Gran Buenos Aires, Argentina

Contributed to the development of a platform for Expedia, collaborating closely with stakeholders to deliver high-quality digital experiences.

Built frontend features with React and implemented backend services with Java and Spring Boot, ensuring scalability and performance.

Maintained continuous client communication, aligning technical decisions with business goals.

Swipe Creative
Full-stack Developer
enero de 2012 - enero de 2014 (2 años 1 mes)
Argentina

I developed a website with HTML5, CSS3, and Python. Consultancy about informatic solutions to companies likes Bonano, Developer Group, Las Cumbres's school. I handled databases like MySQL, MariaDB, and MongoDB.

I worked in graphic design with Illustrator and Photoshop to develop the publicity banner of my own company.
